Information on Situation at GSI related to COVID-19 Virus

Dear Customers, Business Partners,

First of all: We very much hope that you are well and that you and your colleagues are not personally affected by the current pandemic.

Of course, the well-being of our customers, partners and employees is our first priority. For this reason, we would like to inform you about the current situation at GSI:

We continue to produce for you. Our production and laboratories continue to work in shifts and thus ensure a smooth production of orders according to our schedules. With regard of the administrative area, some colleagues work from home and are available to respond to your needs in the usual manner. Business travel activities are limited to emergency situations but will resume when governmental restrictions permit. Furthermore, we are in close contact with our forwarding agents to avoid delays in the transport of goods as far as possible.

You can rest assured that we have sufficient stock of raw materials for the coming weeks and months. In addition, we continuously check the delivery times and, where this has not yet been done, we establish second source supply. If you already know about new or additional quantities required, we would be very pleased - as usual - to receive early forecasts from you.

If you need further information or have any questions, please do not hesitate to contact us.

Stay healthy!

Best regards.

Gleitsmann Security Inks GmbH
